Umbulharjo, Yogyakarta City, 55161 – Indonesia

I am an Informatics graduate from Ahmad Dahlan University with competencies in Data Analysis and Front-End Development. Proficient in Python, MySQL, Microsoft Excel, Tailwind CSS, and JavaScript, with experience in data cleaning, preprocessing, visualization, database management, and developing responsive web interfaces. Possess strong analytical thinking, problem-solving, attention to detail, and a good understanding of user interface development. Experienced in transforming data into meaningful insights and building functional, user-friendly web interfaces. Eager to contribute as a Data Analyst or Front-End Developer while continuously developing technical skills and adapting to new technologies.

Work Experiences

Informatics Laboratory, Universitas Ahmad Dahlan – Yogyakarta

Sept 2025 – Jan 2026

Database Laboratory Teaching Assistant

- Mentored 40+ undergraduate students in database laboratory sessions, covering SQL, MySQL, database design, and query implementation.
- Assisted lecturers in preparing laboratory materials, facilitating practical classes, and evaluating student assignments.
- Supported students in troubleshooting database-related problems and improving their understanding of database concepts.

ASCEE (Association for Scientific Computing, Electronics, and Engineering) – Yogyakarta

Aug 2025 - Dec 2025

Backend Developer Intern

- Developed backend systems and features for web applications using Laravel, JavaScript, and MySQL.
- Collaborated with cross-functional teams in the development, testing, and enhancement of web application features.
- Performed testing, debugging, and performance optimization to ensure high-quality
- Utilized Git & GitHub for version control and collaborative development workflows.

Education

Universitas Ahmad Dahlan - Yogyakarta, Indonesia

Sep 2022 - Jun 2026

Bachelor of Informatics, 3.94/4.00

- Recipient of the Academic Excellence Scholarship (2023) for outstanding academic performance.
- Recipient of the Kepulauan Riau Regional Scholarship, awarded based on university and GPA ranking across the Kepulauan Riau region.
- Completed a bachelor's thesis titled " Aspect-Based Sentiment Analysis from X about the Use of AI in Education."
- Participated in a research project focused on developing an expression detection system for children.
- Served as a Teaching Assistant for Database (2 semesters), Artificial Intelligence, and Algorithm Strategy courses, mentoring 200+ undergraduate students during 2023–2026.

Academic Projects

Village Information Management System – KKN Karangtengah Village

Feb – Mar 2026

Fullstack Developer

- Developed responsive and user-friendly web interfaces using Next.js and CSS for the village information management system.
- Implemented frontend features and integrated them with PHP-based backend functionality to support dynamic website content.
- Collaborated with the team to develop and deliver an information system tailored to the needs of Karangtengah Village.

Web-Based Information Management System – CV Kembar Jaya

Sept 2023

Frontend Developer

- Developed responsive web application interfaces using HTML, CSS, and JavaScript.
- Designed and integrated a MySQL database based on the system requirements and Entity Relationship Diagram (ERD).
- Managed database integration between the user-facing website and backend system to support efficient data management.

Organizational Experience

Legislative Training Committee - Yogyakarta

Dec 2024

Consumption Division

- Coordinated meal planning and catering arrangements for 100 participants, committee members, and speakers throughout the event.
- Ensured timely and accurate meal distribution according to the event schedule and participants' requirements.
- Collaborated with vendors and organizing committees to support smooth event operations and successful program execution.

Mentor Division

- Mentored and guided 13 new students, providing direction and support throughout the 7-day orientation program.
- Coordinated with fellow mentors and the organizing committee to ensure the smooth implementation of orientation activities and schedules.
- Assisted new students in adapting to the campus environment, and providing clear information throughout the program.

Skills

- **Hard Skills:** Python, SQL, MySQL, Microsoft Excel, Data Cleaning, Data Preprocessing, Exploratory Data Analysis (EDA), Data Visualization, HTML, CSS, JavaScript, Tailwind CSS, Responsive Web Design, Git & GitHub.
- **Softskills:** Analytical Thinking, Problem Solving, Attention to Detail, Communication, Teamwork & Collaboration, Leadership, Time Management, Adaptability
